

FYPON 10 TIPS

for

UPGRADING YOUR HOME'S INTERIOR

July 8, 2008

Consumer Media Information

Homeowners eager to add value to their homes can never get enough of do-it-yourself projects. Easy-install Fypon urethane products allow consumers to tackle both small and large projects quickly with immediate results.

For creative tips on how to upgrade the home's interior while adding long-term value and appeal to the home, try any of these ideas:

- TIP 1** Use a window crosshead for a fast and easy shelf.
(NOTE: Shelf is not load bearing - only small items should be placed on the shelf)
- TIP 2** Flank the window opening between two rooms (like a kitchen and family room) with a pair of urethane shutters. The lightweight shutters can be stained or painted to accent the walls.
- TIP 3** Place brightly-painted triangular, rectangle, circle and other geometric trim pieces on the walls in a child's room to create a bold, visual look.
- TIP 4** Install raised window panels side-by-side on the wall in a room to create a unique wainscot look.
- TIP 5** Add a scalloped moulding border to a child's room to launch into a princess or medieval theme for the room.
- TIP 6** Use crosshatch or square decorative panels made out of lightweight urethane to serve as see-through room dividers or "gates" to keep toys, pets and children separated from expensive knick-knacks.
- TIP 7** Since the pineapple is the universal sign of hospitality, add a decorative half-round or full round pineapple accent piece in the entryway to your home.
- TIP 8** Create a design for a backsplash using urethane applique tiles. Decorative and resistant to moisture, Fypon's 17-inch squares offer lots of detail and can be painted or faux finished.
- TIP 9** Faux finish a lightweight urethane ceiling medallion to serve as an accent piece in any interior room.
- TIP 10** Enhance room entryway areas with PVC Column Wraps that give new life to old columns in less than 15 minutes.

Smooth white faux beams installed on a kitchen ceiling add depth to the room.

Around the world with a one-piece ceiling medallion from Fypon finished with a world map and faux paints.

Column Wraps can serve as focal transition points from room-to-room in the home.
